hybris-Salesforce Connector for B2B:

Many hybris customers are building deeper relationships in their B2B distribution network, driven by

- supplier diversity and globalization,
- expectation for omni-channel commerce, and
- empowered customers, demanding superior B2C-like user experiences

The hybris-Salesforce integration provides a more complete view of a business customer, empowering agents and enabling greater sales executions.

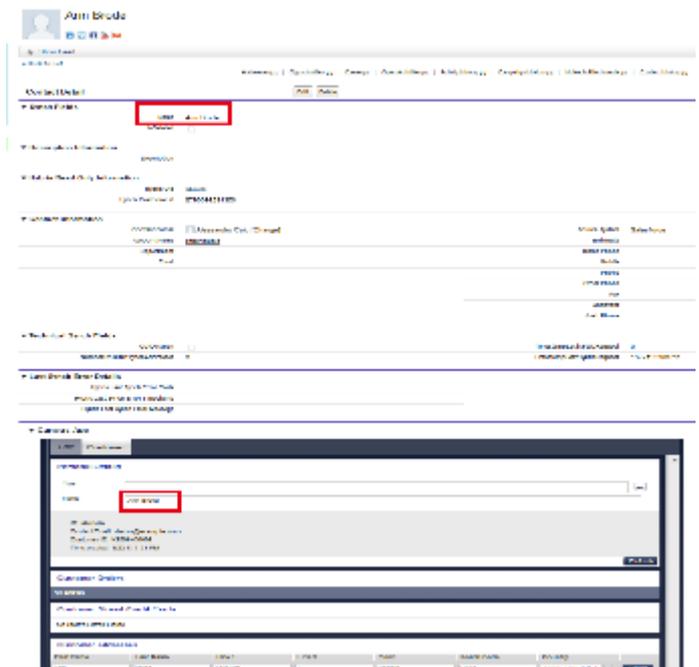

Fig. 1: Customer contacts are automatically synchronized between Salesforce and hybris. After synchronization, the Salesforce Canvas App will display hybris' Customer Service Cockpit related to the customer, with a view of his orders, shopping carts, etc.

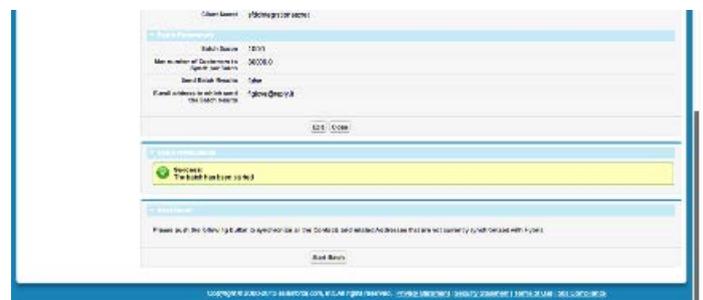

Fig. 2: If real-time synchronization is disabled you can synchronize customer contacts manually by using the batch functionality. It is also possible to perform scheduled synchronizations.

About hybris software

hybris software, an SAP Company, helps businesses around the globe sell more goods, services and digital content through every touchpoint, channel and device. hybris delivers OmniCommerce™: state-of-the-art master data management for commerce and unified commerce processes that give a business a single view of its customers, products and orders, and its customers a single view of the business. hybris' omni-channel software is built on a single platform, based on open standards, that is agile to support limitless innovation, efficient to drive the best TCO, and scalable and extensible to be the last commerce platform companies will ever need.
